

The Geoff Coldham Orthopaedic Symposium 2019

In recognition of the life and career of Geoff Coldham, Middlemore Orthopaedic Department welcomes you to the 4th Annual Geoff Coldham Memorial Symposium

Our 2019 invited lecturer is Dr Kevin Chung, Chief of Hand Surgery for Michigan Medicine, USA and Professor of Surgery at Michigan School of Medicine. Dr Chung's visit is generously sponsored by the Sir William and Lady Manchester Charitable Trust.

Dr Chung is a hand surgeon of international renown. Originally trained in Plastic Surgery, his practice encompasses all areas of hand surgery from congenital hand and micro-surgery to spinal-cord injuries and the brachial plexus. He is a world authority on the treatment of rheumatoid arthritis and has extensive experience with joint replacement in the hand, wrist and complex trauma.

Topics at the Symposium have been chosen to interest both the generalist and specialist orthopaedic hand surgeon. Lectures from both Dr Chung and local speakers will be followed by complex case discussions and Registrar teaching.

**Ko Awatea, Tiered Lecture Theatre 3, Middlemore Hospital
Wednesday 28th August 2019 0800 for 0830**

A pre-conference dinner will be held on Tuesday evening 27th August

Conference including dinner \$500 / excluding dinner \$250
