Grafton Road, AUCKLAND
Contact: Mr Stewart Walsh

Spine Fellowship now available. Six month or twelve month spine fellowship at Middlemore Hospital in Auckland

Middlemore Hospital has the Regional Spinal Cord Injuries Unit for the upper North Island of New Zealand with a catchment population of 2.5 million. Working with four orthopaedic spine surgeons, the fellow will be involved in the care of acute and elective spine patients, including patients admitted through the Regional Acute Spinal Cord Injury Pathway. Fellows will also gain experience in the management of the full range of spinal column injuries.

Exposure to outpatient clinics allows assessment of new spine patients and those requiring follow up. Elective referrals expose the Fellow to management of degenerative diseases, infections, inflammatory arthritis, adolescent scoliosis, tumours and metastatic disease and complex deformity. The Fellow would be intimately involved in the assessment, co-ordination, and treatment of patients with spinal cord injuries. This is a clinical fellowship however opportunities for research are available and would be supported.

Interest should be made via e-mail, with attached CV, to Mr Alpesh Patel.

WAIKATO:

Fellow - Waikato Spine Fellowship

Fixed term for 6 or 12 months

Job Number: WAI07392

The Waikato Spine Fellowship is a comprehensive program for an aspiring Spine Surgeon delivered by three fellowship-trained surgeons.

With a combined volume of over 400 cases a year the Fellow will be exposed to techniques addressing pathology from occiput to pelvis including anterior and posterior, minimally invasive and open approaches. With the exception of early onset scoliosis all pathology is treated: degenerative 45%, trauma 25%, infection 10%, deformity 15%, tumour 5%. Cervical pathology comprises approximately 25%, thoracic 20% and lumbar 55%.

Experience is gained through attendance at operating sessions in both public and private settings, weekly outpatient spine clinics and academic pursuits (if desired). For selected candidates, after an initial period of assessment, the opportunity will exist to take 'spine call' with consultant back-up available. Attendance at one major international spine meeting/course is encouraged as is attendance at the New Zealand Orthopaedic Spine Society Annual Meeting.

For Orthopaedic surgeons, additional duties involving participation in the general orthopaedic trauma service are available.

6 and 12 month Fellowships are possible but preference is given to candidates pursuing 12 months.

If you would like to discuss this position prior to applying please contact either Dr [Joseph Baker](#) or [Dr Hamish Deverall](#) or on +64 7 839 8899.

Closing date: Open until filled

[Position description](#)

Please apply on the [WaikatoDHB website](#)

Orthopaedic Trauma Fellowship - 6 or 12 month fellowship at Waikato Hospital.

Waikato Hospital is a level 1 Trauma Hospital which services the central North Island of New Zealand (population approximately 1/2 million) covering all aspects of Orthopaedic Trauma.

The fellowship includes opportunities to gain exposure to all aspects of Orthopaedic Trauma (Upper Limb, Pelvis, Lower Limb and Spine) with the ability to tailor the experience to the individual's interests.

This fellowship is largely clinically based with a mix of Fellow and Consultant lists however opportunities for research are available.

Interested applicants should email Mr Joe Baker and Mr Steve McChesney with a cover letter and CV.
